

# **Attention residents served by the Putnam community water supply:**

**Tanker water may be used for consumption, oral hygiene, food preparation, dishwashing, and handwashing.**

**Tanker water should only be dispensed in clean food grade containers (that have not been cleaned with water from the Putnam community water supply.)**

**The container should also be securely covered when transporting water back to your residence.**

**These measures are to avoid any potential additional contamination of water.**

**The Putnam community water supply may be used for bathing, showering, laundering, gardening, and other activities associated with non-consumption.**

**Thank you for your cooperation.**

**For more information, please call the Northeast District Department of Health at 860-774-7350 (Monday-Friday 7:00 a.m. – 4:00 p.m.)**

**For after hour emergencies, please contact the Director of Health through 9-1-1 dispatch.**
