

Business Owners and Staff!
Take customer service to a whole new level...
Learn a potentially life-saving skill.

Each year, we lose 4,500 Connecticut residents to sudden cardiac arrest. These events can happen anywhere at any time...including ***at your place of business.***

Increase the chances of survival for cardiac arrest victims by becoming trained in the use of cardiopulmonary resuscitation and automated external defibrillators (CPR/AED).

- Restaurant owners encouraged to register along with staff, managers, and Qualified Food Operators
- Owners and staff from all types of business are welcome

Monday, March 13, 2017

5:30 – 8:30 p.m.

First 25 registered will train at Northeast District Department of Health,
