

Northeast District Department of Health

69 South Main Street, Unit 4, Brooklyn, CT 06234 860-774-7350 / Fax 860-774-1308 <u>www.nddh.org</u>

A MESSAGE FROM THE DIRECTOR OF HEALTH, Fiscal Year 2019

NDDH is proud to have worked with great public health partners from across the region and the nation this year. We partnered the National Network of Libraries of Medicine to increase awareness of the availability of reliable health information and education resources and with local librarians, shelters food pantries and police to provide free Hepatitis A vaccines to vulnerable populations. We ran free flu vaccination clinics for adults and children with vaccine provided by the State Department of Public Health (DPH) and responded to threats of measles outbreaks by encouraging routine childhood vaccinations. NDDH and the Uncas Health District implemented *Freedom from Smoking*—the American Lung

Association's smoking cessation program. NDDH secured free radon test kits from DPH and distributed them to residents over the winter in an effort to reduce exposure to radon—the leading cause of lung cancer among people who don't smoke.

This spring, the CT Office of Rural Health provided funds for our Vial of Life program. Vial of Life kits make medical information readily available should there be a health emergency. Local first responders report that these kits save precious minutes when they respond to life-threatening events. We distributed the kits through partnerships with town halls, local fire and emergency response personnel, senior centers and other community partners. Our HealthQuest coalition partners collaborated on fall prevention efforts—including a hugely successful veterans stand down event at Quinebaug Valley Community College. We collaborated with the Last Green Valley to promote walking and with RiMaConn to promote running.

Over the past year, we promoted handwashing and safe food practices, tobacco avoidance, timely immunizations, physical activity (while avoiding ticks, mosquitoes and stray animals of course), adequate sleep and so much more, because we are in the business of prevention. We work to prevent chronic conditions such as asthma, obesity, heart disease, diabetes and infectious disease, such as the flu. We are spreading a message of hope to all those struggling with addiction because we know that recovery is possible. We do it all to make this a healthy community—healthy in terms of physical, mental, social and economic well-being. We do it to keep kids in school and the frail out of hospitals. We do it to prevent the impact illness makes on individuals—and on those who care for them. We do this so we can see you out and about enjoying the beauty of northeast Connecticut and the company of good neighbors.

We are dedicated to working collaboratively to keep northeast CT happy, healthy and safe and are so grateful to everyone who support the goals of public health. Thank you for all you do!

Susan Starkey, MPH MS RD
